

COVID-19 Operational Policy

Approach

- Our priority is first and foremost the safety and well being of our staff, clients and community that visit us.
- After considering the government advice and listening to the guidance given by both the AOP and APA, we have created this ongoing policy to outline how we will be operating for the time being.

Below is an outline of the steps we are taking to make the studios as safe as possible:

Sanitisation and Hygiene

- Common areas will be sanitised throughout the day concentrating on the most frequently touched areas such as door handles and stair rails.
- We will provide hand sanitiser around all common areas and studios.

Face coverings and masks

- We no longer require our clients and staff to wear a mask within the building.

Testing

- We offer a Covid Testing service on-site. Please contact production to pre-book before your shoot.

Staggered start times and extended hours

- We have introduced staggered shoot start times to minimise mixing between crews at no extra cost to our clients.

Deliveries

- Please ensure that someone from your team is contactable by the driver to accept deliveries and collections

Street Studios
2 Dunston Street
London E8 4EB

streetstudios.co.uk

Client Responsibilities

- Submit a call sheet listing details of all attendees.
- If you are being tested on-site, we ask the producer to please ask any members testing positive to leave the building immediately to minimise the risk to others.

If you would like to discuss our plan in more detail or have any suggestions on improving it, please email our MD mariana@streetstudios.co.uk
